STKI Celebrating 30 Years

March 1992 till March 2022

We are the Knowledge Integrators

Dr. Jimmy Schwarzkopf

Jimmy is a founder of STKI (META Israel) and holds degrees in Engineering (BSE & MSE) and in Business & Entrepreneurship (DBA & MSIA)

Areas of coverage:
 Israel IT market
 CIO & IT Management
 Verticals
 Finance
 Health
 Innovation management

Galit Fein

Galit has been working in STKI since 2003, holds an MBA from Ben-Gurion University and is a registered Chief Risk Manager (CRO)

Areas of coverage:
 Organizational Transformation
 Organizational Structure
 OCIO and PPM tools
 Strategic Planning and Budget mng
 Business Process Automation (RPA, OCR, ect)
 Blockchain
 Web 3.0 and Metaverse
 Sourcing

Einat Shimoni

Einat has been working in STKI since 1996, holds a BA in social studies from Bar-Ilan University and an MBA from Tel-Aviv University.

Areas of coverage:
 Customer engagement strategies:
 • Customer Experience
 • CRM
 • Marketing Automation
 • Omni channel
 • Service Design
 Data driven transformation:
 • Data strategy
 • Data operations
 • Data science, Machine Learning and AI
 • Democratization
 • literacy and monetization

Pini Cohen

Pini has been working in STKI since 2000, Pini holds BA in Computer Science from Technion and MBA from Tel Aviv University Cum Laude.

Areas of coverage:
 Cloud strategies and operations
 Cloud native development and architecture
 Traditional Hardware and Data Center
 Devops and cyber operation environment
 Finops and data platforms
 Middleware and modern integration
 Technology procurement management

Reut Shefer Bar

Reut joined STKI during 2021, holds MBA in Finance from University of Haifa and MBA in Data Science Analytics from Tel-Aviv University

Areas of coverage:
 Enterprise Applications – ERP, SCM...
 eCommerce
 WCM – Web Content Management
 ECM - Enterprise Content Management, KM
 HCM, HR and work environment
 EX - Employee Experience
 QA and Testing technologies and software
 Call Center
 Productivity Tools

WHEN IT RAINS IT POURS: global events raining on IT BUDGETS

Q4 2021 & Q1 2022 results forecasted a strong IT market in Israel. IT budget increases were going to be large; staffing needs were increasing (although, staffing IT professionals was difficult), growth could be found across nearly all IT sectors. But, since we started our survey in January 2022, global & local events have changed our optimistic outlook:

- War between Russia and Ukraine
- Price of oil and gas increases
- Inflation erupted pushing the world into a recession.
- Interest rates increasing after years of “free money”
- Massive layoffs are happening because of a “startup & high-tech” bubble exploding
- Corona -health situation deteriorates again
- 5th elections in Israel in about 3 years (Nov 1)
- Because of the elections 2023 Israel State Budget will not pass (lowering government IT budgets)

Despite the potentially “BAD” news limiting the economic expansion there are plenty of reasons to be optimistic, We expect IT budgets in Israel to rise 12%-13% in 2022 (but given the above mixed political and economic signals we couldn't forecast 2023 or 2024 with an acceptable margin of error).

Digital transformation is not enough; smart “business” transformation will be required: Customers expect experience-driven, hyper-personalized, and data-driven business models. The first-mover digital advantage is over.

Now, the real work begins. Smart business transformations cannot start without modernizing complete capabilities of “business value” ecosystems (applications, components, services, data and APIs) across a wide range of platforms and often laden with technical debt

Founded in 1992, STKI is the leading business technologies market research and strategic analyst firm in Israel.

6

Over 30 years of experience in the IT analyst sector and thousands of annual face-to-face interviews with key industry participants have enabled STKI analysts to establish solid, long-standing relationships with customers.

STKI customers include major IT organizations (government, financial institutions, telecoms, manufacturing, medical, education, etc.) and IT suppliers/vendors (infrastructure and software suppliers, consulting and professional services firms).

STKI works closely with vendor senior management (strategy, business development, and marketing).

Where end users are concerned, analysts meet with CEOs, CFOs, CMOs, CDOs and CIOs (as with all levels of IT decision making) thereby attaining complete information of their technology as well as their business needs.

STKI's mission is to advise and analyze users of business technologies as well as their suppliers while conducting original research and providing advisory services regarding all parts of the technology puzzle.

7

STKI services include

Unlike some research and advisory firms

does no consulting work,

allowing our research to be **totally unbiased, with no hidden agendas to promote** any particular technology or vendor.

*Virtual meetings**

Face-to-face meetings
STKI Analyst House Calls
(for both users and vendors)
CIO STKI "Help Desk"
Inquiries
Surveys
Strategic Marketing & Positioning
Round Tables for users

*Weekly Webinars**

Vendor Discovery Series
(Newsletters and workshops)
Vendor Innovation Workshops
In-house Workshops
CIO Annual Bootcamp
CTO Annual Bootcamp
Brainstorming
(based on Design Thinking)
Workshops
STKI Annual Summit

** new*

נייר עמדה: מבנה ארגוני וקבלת החלטות בתחום סייבר בארגוני Enterprise IT

סיכום מנהלים:

- בתחום הסייבר יש להבחין בין "גורם מבקר", "גורם מנחה" ו"גורם מתפעל" (אחראי סייבר).
- הגורם האחראי לטיפול ותפעול נושא הסייבר בארגון הוא ה-CIO ("הגורם המתפעל"), לא ניתן להפריד בין תפעול ה-IT הכללי לבין תפעול נושא הסייבר.
- לעיתים, יאציל ה-CIO פסקות (אחריות) לטיפול ותפעול נושא הסייבר למנהל התפעול השוטף

In order to calculate the "IT Market" (what is bought/sold in Israel)

10

Technology Users

Technology Vendors

What users bought?
From whom?
Why?

how much did they sell?
to whom?
for how much?
competitors?

Copyright@STKI_2022 Do not remove source or attribution from any slide, graph or portion of graph

Our study looks at any vendor value (products/services) sold to enterprises (also government & security) in Israel; taking into account the client's view/mindshare of value delivered

rankings are based partly on new projects, new names and market penetration growth

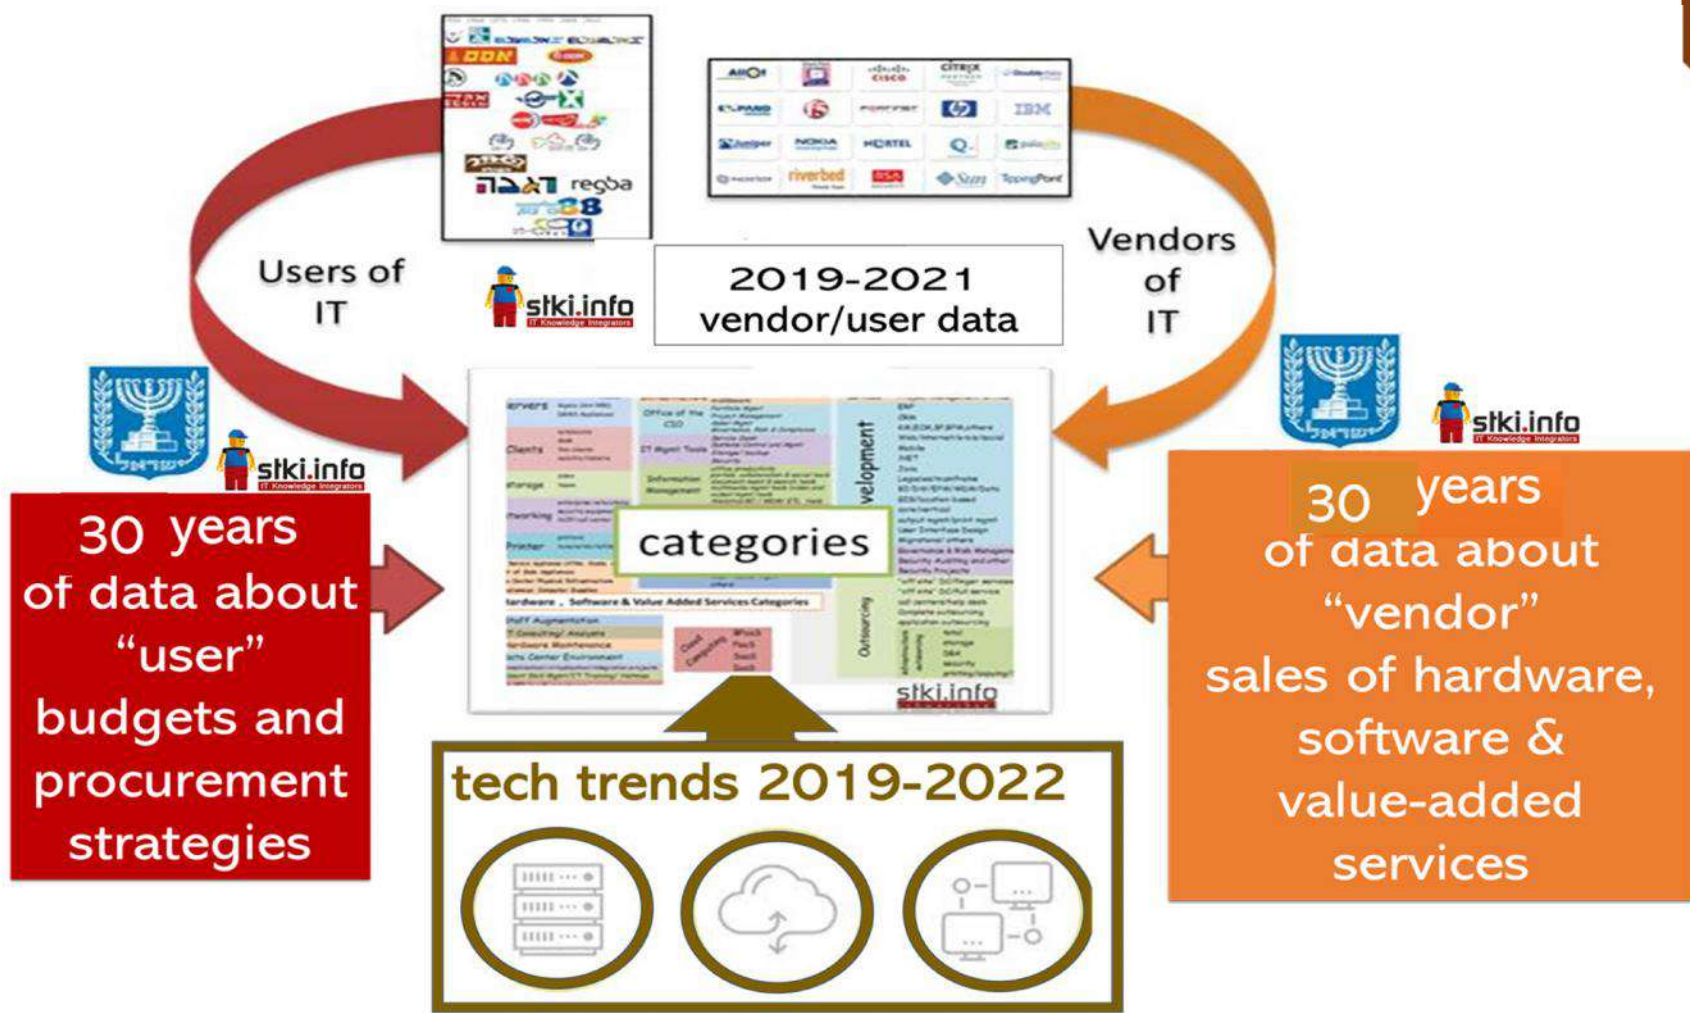

11

We rank VENDORS by
REVENUE
and
CLIENT MINDSHARE

- > Yearly revenues of hardware sales and hardware maintenance
- > Yearly revenues of software subscriptions & licenses, software maintenance
- > **Differentiation** between new projects and continuing projects (New projects count more)
- > **Distinguish** between work done by the vendor's employees and work outsourced to other vendors. The **revenue should be transferred** to the vendor **actually doing** the work.
- > **Differentiate** revenues from projects done in fixed price, cost plus (**SLA defined**) , managed services and those done by staff augmentation (**non SLA**) projects.
- > **Differentiate value** of work done by **high level internal** professionals in a project versus that done by **staff augmentation** employees in the clients IT department.
- > We **do not** include any work/ products for OEMs and military non-IT projects.

Manufacturers/Software Houses, Distributors, VARs NO double bookings for IT Market Size Forecasts

20

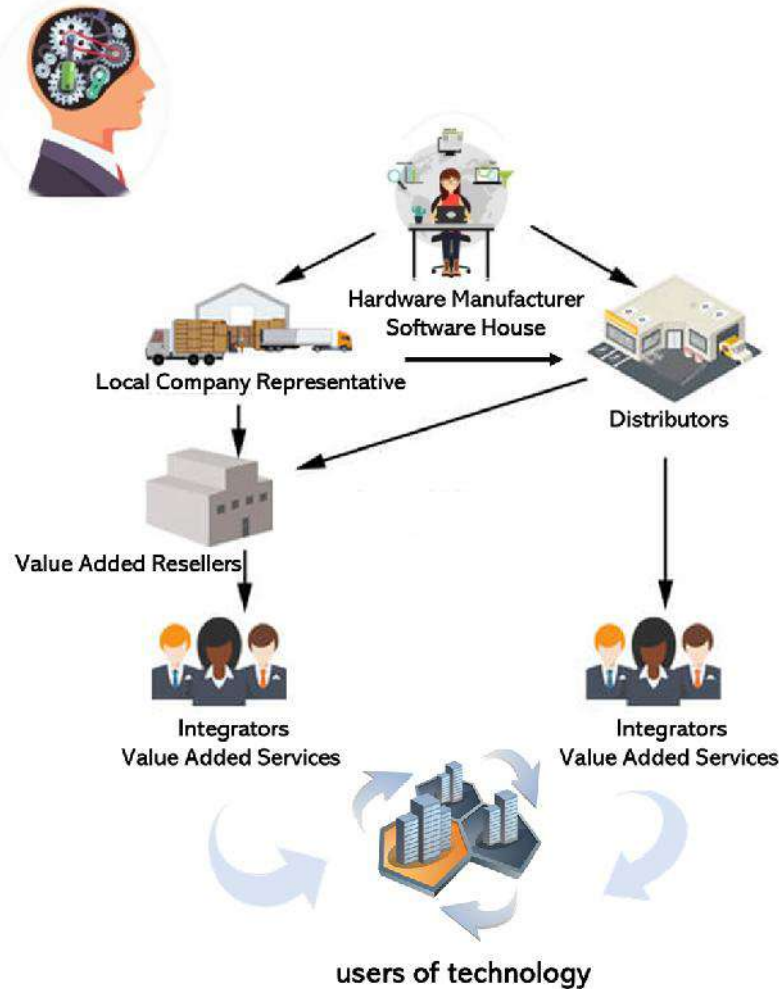

Resellers (VARs) get credit only for their value added unless the manufacturer/software house is not present in Israel, then they get full credit.

Integrators and other Value Added Service Providers get credit only for the “services-work” they contributed to the project.

Copyright@STKI_2022 Do not remove source or attribution from any slide, graph or portion of graph

DISTRIBUTORS (usually are not shown in our study) are intermediary reseller entities; between the original **MANUFACTURERS OF HARDWARE PRODUCTS** or **SOFTWARE HOUSES** and other entities in the distribution channel (VARs and INTEGRATORS).

VALUE-ADDED RESELLERS (VARs) offer third party software and hardware to the end user or integrators at a markup, along with a *limited* combination of procurement consulting, configuration, and customization services (*shown under HARDWARE or SOFTWARE*)

INTEGRATORS offer *professional's services* (consulting, developing, implementing or sourcing manpower) in order to deliver enterprise computer services to the organization. (*shown under VALUE ADDED SERVICES*).

Internet, cellular use and 5G penetration in Israel 2022 25

There were 7.97 million internet users in Israel in January 2022.

Israel's internet penetration rate stood at 90.0 percent of the total population at the start of 2022. Kepios analysis indicates that internet users in Israel *increased by 295 thousand (+3.8 percent) between 2021 and 2022.*

However, issues relating to COVID-19 continue to impact research into internet adoption, so *actual internet user figures may be higher* than these published numbers suggest

GSMA Intelligence shows that there were 10.39 million cellular mobile connections in Israel at the start of 2022 (equivalent to 117.3 % of the total population) growth of 383 thousand (+3.8 percent) between 2021 and 2022.

**Global
Innovation
Index 2021**

Rankings for Israel (2019–2021)

	GII	Innovation inputs	Innovation outputs
2021	15	18	12
2020	13	17	13
2019	10	17	8

- Israel performs better in innovation outputs than innovation inputs in 2021.
- This year Israel ranks 18th in innovation inputs, lower than both 2020 and 2019.
- As for innovation outputs, Israel ranks 12th. This position is higher than last year but lower than 2019.

14th

Israel ranks 14th among the 51 high-income group economies.

1st

Israel ranks 1st among the 19 economies in Northern Africa and Western Asia.
